ADDITIONAL INFORMATION

Qualcomm has filed a definitive proxy statement and WHITE proxy card with the U.S. Securities and Exchange Commission (the "SEC") in connection with its solicitation of proxies for its 2018 Annual Meeting of Stockholders (the "2018 Annual Meeting"). QUALCOMM STOCKHOLDERS ARE STRONGLY ENCOURAGED TO READ THE DEFINITIVE PROXY STATEMENT (AND ANY AMENDMENTS AND SUPPLEMENTS THERETO) AND ACCOMPANYING WHITE PROXY CARD AS THEY CONTAIN IMPORTANT INFORMATION. Stockholders may obtain the proxy statement, any amendments or supplements to the proxy statement and other documents as and when filed by Qualcomm with the SEC without charge from the SEC's website at www.sec.gov.

CERTAIN INFORMATION REGARDING PARTICIPANTS

Qualcomm, its directors and certain of its executive officers may be deemed to be participants in connection with the solicitation of proxies from Qualcomm's stockholders in connection with the matters to be considered at the 2018 Annual Meeting. Information regarding the identity of potential participants, and their direct or indirect interests, by security holdings or otherwise, is set forth in the proxy statement and other materials to be filed with the SEC. These documents can be obtained free of charge from the sources indicated above.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Any statements contained in this presentation that are not historical facts are forward-looking statements as defined in the U.S. Private Securities Litigation Reform Act of 1995. Additionally, statements regarding operating results for future years, growth in operating results and the factors contributing to future operating results; the resolution of licensing disputes and the impact and timing thereof; expected market, industry, geographic and organic growth and trends; future serviceable addressable market size and growth; anticipated contributions from and growth in new opportunities; benefits from planned cost reductions; technology and product leadership and trends; Qualcomm's positioning to benefit from any of the above; potential benefits and upside to Qualcomm's stockholders related to any of the above; and the regulatory process and regulatory uncertainty are forward-looking statements. Words such as "anticipate," "believe," "estimate," "expect," "forecast," "intend," "may," "plan," "project," "predict," "should," "will" and similar expressions are intended to identify such forward-looking statements. These statements are based on Qualcomm's current expectations or beliefs, and are subject to uncertainty and changes in circumstances. Actual results may differ materially from those expressed or implied by the statements herein due to changes in economic, business, competitive, technological, strategic and/or regulatory factors, and other factors affecting the operations of Qualcomm. More detailed information about these factors may be found in Qualcomm's filings with the SEC, including those discussed in Qualcomm's most recent Annual Report on Form 10-K and in any subsequent periodic reports on Form 10-Q and Form 8-K, each of which is on file with the SEC and available at the SEC's website at www.sec.gov. SEC filings for Qualcomm are also available in the Investor Relations section of Qualcomm's website at www.qualcomm.com. Qualcomm is not obligated to update these forward-looking statements to reflect events or circumstances after the date of this presentation. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates.

NOTE REGARDING USE OF NON-GAAP FINANCIAL MEASURES

The Non-GAAP financial information presented herein should be considered in addition to, not as a substitute for or superior to, financial measures calculated in accordance with GAAP. In addition, "Non-GAAP" is not a term defined by GAAP, and as a result, the Company's measure of Non-GAAP results might be different than similarly titled measures used by other companies. Reconciliations between GAAP and Non-GAAP results are presented herein.

The Company uses Non-GAAP financial information: (i) to evaluate, assess and benchmark the Company's operating results on a consistent and comparable basis; (ii) to measure the performance and efficiency of the Company's ongoing core operating businesses, including the QCT (Qualcomm CDMA Technologies) and QTL (Qualcomm Technology Licensing) segments; and (iii) to compare the performance and efficiency of these segments against competitors. Non-GAAP measurements used by the Company include revenues, cost of revenues, R&D expenses, SG&A expenses, other income or expenses, operating income, interest expense, net investment and other income, income or earnings before income taxes, effective tax rate, net income and diluted earnings per share. The Company is able to assess what it believes is a more meaningful and comparable set of financial performance measures for the Company and its business segments by using Non-GAAP information. In addition, the Compensation Committee of the Board of Directors uses certain Non-GAAP financial measures in establishing portions of the performance-based incentive compensation programs for our executive officers. The Company presents Non-GAAP financial information to provide greater transparency to investors with respect to its use of such information in financial and operational decision-making. This Non-GAAP financial information is also used by institutional investors and analysts in evaluating the Company's business and assessing trends and future expectations.

Non-GAAP information used by management excludes its QSI segment and certain share-based compensation, acquisition-related items, tax items and other items.

- QSI is excluded because the Company expects to exit its strategic investments in the foreseeable future, and the effects of fluctuations in the value of such investments and realized gains or losses are viewed by management as unrelated to the Company's operational performance.
- Share-based compensation expense primarily relates to restricted stock units. Management believes that excluding non-cash share-based compensation from the Non-GAAP financial information allows management and investors to make additional comparisons of the operating activities of the Company's ongoing core businesses over time and with respect to other companies.
- Certain other items are excluded because management views such items as unrelated to the operating activities of the Company's ongoing core businesses, as follows:
 - Acquisition-related items include amortization of certain intangible assets, recognition of the step-up of inventories to fair value and the related tax effects of these items, as well as any effects from restructuring the ownership of such acquired assets. Additionally, the Company excludes expenses related to the termination of contracts that limit the use of the acquired intellectual property, third-party acquisition and integration services costs and costs related to temporary debt facilities and letters of credit executed prior to the close of an acquisition. Starting with acquisitions in the second quarter of fiscal 2017, the Company excludes recognition of the step-up of property, plant and equipment from the net book value based on the original cost basis to fair value. Such charges related to acquisitions that were completed prior to the second quarter of fiscal 2017 continue to be allocated to the segments, and such amounts are not material.
 - The Company excludes certain other items that management views as unrelated to the Company's ongoing business, such as major restructuring and restructuring-related costs, goodwill and indefinite- and long-lived asset impairments and awards, settlements and/or damages arising from legal or regulatory matters.
 - Certain tax items that are unrelated to the fiscal year in which they are recorded are excluded in order to provide a clearer understanding of the Company's ongoing Non-GAAP tax rate and after tax earnings.

Reconciliation of Non-GAAP Financial Measures

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

Fiscal 2019 Accretion from NXP	Fiscal 2019
GAAP diluted EPS	\$0.08
Less: Diluted EPS attributable to QSI	N/A
Less: Diluted EPS attributable to share-based compensation	(\$0.16)
Less: Diluted EPS attributable to other items ⁽¹⁾	(\$1.26)
Non-GAAP diluted EPS	\$1.50

Fiscal 2019 estimated EPS and EPS accretion assume close of the pending NXP acquisition. Estimated amortization of intangible assets included in other items was based on a preliminary purchase price and are subject to change when the formal valuation and other studies are finalized. The differences that will occur between the preliminary estimates and the final purchase accounting could be material.

(1) Other items excluded from Non-GAAP consist primarily of acquisition-related items. Sums may not equal totals due to rounding.
