#### Qualcomm Announces Third Quarter Fiscal 2016 Results Revenues \$6.0 billion GAAP EPS \$0.97, Non-GAAP EPS \$1.16

-EPS Exceeds High End of Prior Guidance-

SAN DIEGO - July 20, 2016 - Qualcomm Incorporated (NASDAQ: QCOM), a leading developer and innovator of advanced wireless technologies, products and services, today announced results for its fiscal third quarter ended June 26, 2016.

"We delivered strong results this quarter, with EPS well ahead of our guidance based on meaningful progress with licensees in China," said Steve Mollenkopf, CEO of Qualcomm Incorporated. "Our chipset business is also benefiting from a strong new product ramp across tiers, particularly with fast growing OEMs in China. We are executing well on our strategic priorities, and we remain confident that our focused investments in 5G and other advanced technologies will create a strong foundation for long-term earnings growth."

Further discussion regarding the Company's use of Non-GAAP financial measures and detailed reconciliations between GAAP and Non-GAAP results are included within this news release.

- \* The following should be considered in regards to the year-over-year and sequential comparisons:
  - The third quarter of fiscal 2016 GAAP and Non-GAAP results included:
    - \$235 million of revenues, or \$0.11 per share, due to the recognition of previously deferred royalty revenues related to the dismissal of the arbitration with LG Electronics, Inc.
  - The second quarter of fiscal 2016 GAAP and Non-GAAP results included:
    - \$266 million of revenues, or \$0.13 per share, due to the termination of an infrastructure license agreement resulting from the merger of two licensees.
  - The third quarter of fiscal 2015 GAAP results included:
    - \$142 million of charges, or \$0.08 per share, that resulted from an impairment of goodwill and long-lived assets related to one of our display businesses.

#### **Third Quarter Key Business Metrics**

	Q3 Fiscal 2016	Q3 Fiscal 2015	Year-Over-Year Change (1)	Q2 Fiscal 2016	Sequential Change (1)
MSM <sup>TM</sup> chip shipments	201M	225M	(11%)	189M	+6%
Total reported device sales (2)	\$62.6B	\$60.4B	+4%	\$70.1B	(11%)

Est. reported 3G/4G average selling price (approx.) (2)	\$191 - \$197	\$205 - \$211	(7%)	\$205 - \$211	(7%)

<sup>(1)</sup> The year-over-year and sequential changes for estimated reported 3G/4G device shipments and average selling prices are calculated at the midpoints. The midpoints of the estimated ranges are used for comparison purposes only and do not indicate a higher degree of confidence in the midpoints.

The third quarter of fiscal 2016 total reported device sales include reporting of certain prior period sales from a small number of licensees in China that have not been reporting under their existing agreements while still in discussions regarding new licenses related to the resolution with the China National

<sup>(2)</sup> The third quarter of fiscal 2015 and 2016 are based on sales by our licensees in the March quarter as reported to us in the June quarter, and the second quarter of fiscal 2016 is based on sales by our licensees in the December quarter as reported to us in the March quarter.

Development and Reform Commission (NDRC). This development reflects the continued progress in negotiations with these companies.

#### Cash and Marketable Securities

Our cash, cash equivalents and marketable securities totaled \$31.0 billion at the end of the third quarter of fiscal 2016, compared to \$35.2 billion a year ago and \$30.0 billion at the end of the second quarter of fiscal 2016.

#### Return of Capital to Stockholders

During the third quarter of fiscal 2016, we returned \$881 million to stockholders, including \$781 million, or \$0.53 per share, of cash dividends paid and \$100 million through repurchases of 1.8 million shares of common stock. On July 12, 2016, we announced a cash dividend of \$0.53 per share payable on September 21, 2016 to stockholders of record as of the close of business on August 31, 2016.

#### **Effective Income Tax Rates**

Our fiscal 2016 annual effective income tax rates are estimated to be approximately 17 percent for GAAP and approximately 18 percent for Non-GAAP. The effective income tax rates for the third quarter of fiscal 2016 were 15 percent for GAAP and 19 percent for Non-GAAP. The effective tax rate for GAAP of 15 percent for the third quarter of fiscal 2016 was less than the estimated annual effective tax rate of 17 percent primarily due to a \$101 million tax benefit recorded discretely in the third quarter resulting from a worthless stock deduction on a domestic subsidiary of our former QMT division, partially offset by changes in our estimates related to foreign earnings taxed at rates that are less than the United States federal tax rate and the benefit of the retroactive reinstatement of the United States federal research and development credit recorded discretely during the first quarter of fiscal 2016 related to fiscal 2015.

#### **Business Outlook**

The following statements are forward looking, and actual results may differ materially. The "Note Regarding Forward-Looking Statements" in this news release provides a description of certain risks that we face, and our most recent quarterly report on file with the Securities and Exchange Commission (SEC) provides a more complete description of risks.

Our outlook does not include provisions for future asset impairments or for pending legal matters, other than future legal amounts that are probable and estimable. Further, due to their nature, certain income and expense items, such as realized investment and certain derivative gains or losses, cannot be accurately

forecast. Accordingly, we only include such items in our financial outlook to the extent they are reasonably certain; however, actual results may differ materially from the outlook. Our outlook includes an estimate of the benefit related to stock repurchases that we plan to complete. We have not included any estimates related to the proposed joint venture with TDK Corporation in our fiscal 2016 outlook. The joint venture is expected to close by early calendar 2017.

The following table summarizes GAAP and Non-GAAP guidance based on the current outlook. The Non-GAAP outlook presented below is consistent with the presentation of Non-GAAP results included elsewhere herein.

*Est. sales in June quarter, reported in September quarter		

- (1) Our guidance for diluted EPS attributable to other items for the fourth quarter of fiscal 2016 includes a loss per share of \$0.07 for acquisition-related items.
- (2) Total reported device sales is the sum of all reported sales in U.S. dollars (as reported to us by our licensees) of all licensed CDMA-based, OFDMA-based and CDMA/OFDMA multimode subscriber devices (including handsets, modules, modem cards and other subscriber devices) by our licensees during a particular period (collectively, 3G/4G devices). The reported quarterly estimated ranges of average selling prices (ASPs) and unit shipments are determined based on the information as reported to us by our licensees during the relevant period and our own estimates of the selling prices and unit shipments for licensees that do not provide such information. Not all licensees report sales, selling prices and/or unit shipments the same way (e.g., some licensees report sales not of permitted deductions, including transportation, insurance, packing costs and other items, while other licensees report sales and then identify the amount of permitted deductions in their reports), and the way in which licensees report such information may change from time to time. In addition, certain licensees may not report (in the quarter in which they are contractually obligated to report) their sales of certain types of subscriber units, which (as a result of audits, legal actions or for other reasons) may be reported in a subsequent quarter. Accordingly, total reported device sales, estimated unit shipments and estimated ASPs for a particular period activity that was not reported by the licensee until such particular period.
- (3) Our guidance range for the fourth quarter of fiscal 2016 total reported device sales reflects estimated 3G/4G total reported device sales that we currently expect to be reported to us, which includes an estimate of some prior period activity (i.e., devices shipped in prior periods) that may be reported to us.

Sums may not equal totals due to rounding.

<sup>(</sup>a) Non-GAAP reconciling items related to revenues consisted primarily of nonreportable segment revenues less intersegment eliminations. Non-GAAP reconciling items related to earnings before taxes consisted primarily of certain research and development expenses, selling, general and administrative expenses, other expenses or income, interest expense and certain investment income that are not allocated to the segments for management reporting purposes; nonreportable segment results; and the elimination of intersegment profit.

<sup>(</sup>b) At fiscal year end, the quarterly tax provision (benefit) for each column equals the annual tax provision (benefit) for each column computed in accordance with GAAP. In interim quarters, the sum of these provisions (benefits) may not equal the total GAAP tax provision, and this difference is included in the tax provision (benefit) in the "Other Items" column. See the "Reconciliation of Non-GAAP Tax Rates to GAAP Tax Rates" herein for further details.

#### Note Regarding Use of Non-GAAP Financial Measures

The Non-GAAP financial information presented herein should be considered in addition to, not as a substitute for or superior to, financial measures calculated in accordance with GAAP. In addition, "Non-GAAP" is not a term defined by GAAP, and as a result, the Company's measure of Non-GAAP results might be different than similarly titled measures used by other companies. Reconciliations between GAAP and Non-GAAP results are presented herein.

The Company uses the Non-GAAP financial information: (i) to evaluate, assess and benchmark the Company's operating results on a consistent and comparable basis; (ii) to measure the performance and efficiency of the Company's ongoing core operating businesses, including the QCT (Qualcomm CDMA Technologies) and QTL (Qualcomm Technology Licensing) segments; and (iii) to compare the performance and efficiency of these segments against competitors. Non-GAAP measurements used by the Company include revenues, cost of equipment and services revenues, R&D expenses, SG&A expenses, other income or expenses, operating income, interest expense, net investment income, income or earnings before income taxes, effective tax rate, net income and diluted earnings per share. The Company is able to assess what it believes is a more meaningful and comparable set of financial performance measures for the Company and its business segments by using Non-GAAP information. In addition, the Compensation Committee of the Board of Directors uses certain Non-GAAP financial measures in establishing portions of the performance-based incentive compensation programs for our executive officers. The Company presents Non-GAAP financial information to provide greater transparency to investors with respect to its use of such information in financial and operational decision-making. This Non-GAAP financial information also is used by institutional investors and analysts in evaluating our business and assessing trends and future expectations.

Non-GAAP information used by management excludes QSI and certain share-based compensation, acquisition-related items, tax items and other items.

- QSI is excluded because the Company expects to exit its strategic investments in the foreseeable future, and the effects of fluctuations in
  the value of such investments and realized gains or losses are viewed by management as unrelated to the Company's operational
  performance.
- Share-based compensation expense primarily relates to restricted stock units. Management believes that excluding non-cash share-based compensation from the Non-GAAP financial information allows management and investors to make additional comparisons of the operating activities of the Company's ongoing core businesses over time and with respect to other companies.
- Certain other items are excluded because management views such expenses as unrelated to the operating activities of the Company's
  ongoing core businesses, as follows:
  - Acquisition-related items include amortization of certain intangible assets, recognition of the step-up of inventories to fair value and
    the related tax effects of these items starting with acquisitions completed in the third quarter of fiscal 2011, as well as any tax
    effects from restructuring the ownership of such acquired assets. Additionally, the Company excludes expenses related to the
    termination of contracts that limit the use of the acquired intellectual property and third-party acquisition and integration services
    costs.
  - The Company excludes certain other items that management views as unrelated to the Company's ongoing business, such as major restructuring and restructuring-related costs, goodwill and indefinite- and long-lived asset impairments and litigation settlements and/or damages.
  - Certain tax items that are unrelated to the fiscal year in which they are recorded are excluded in order to provide a clearer
    understanding of the Company's ongoing Non-GAAP tax rate and after tax earnings.
